## **WILOTEKT-PLUS APPROVAL**

**by**

**NHBC and ZURICH**

Axter's fully bonded structural waterproofing system WILOTEKT-PLUS is now fully approved for use by both of the UK's leading building warranty providers: the National House Builders Registration Council (NHBC) and Zurich Building Guarantees.

The 2007 edition of the NHBC's Standards, Technical Requirements Clause R3 Materials, now recognises third party European Technical Approvals (ETA) issued by bodies other than the British Board of Agrément. In addition Axter has received written confirmation from Peter Crane of the NHBC and Alain Cairns of Zurich that they accept the use of WILOTEKT-PLUS on buildings covered by their warranties so long as the specification and installation is in accordance with the assessment.
