

VMS SCREWS & WASHER

Description

Axter VMS screws and washers are used for the installation of thermal insulation and / or single or multi layer waterproofing systems to profiled metal roof decks (0.8mm thick). Axter VMS screws are self tapping, 4.8mm in diameter and made of a Supracot 2C coated steel with 15 Kesternich cycles resistance. The 40x40 washer is made of 0.8mm galvanised steel.

Sizes

Axter VMS screws are available in a number of sizes depending on the waterproofing and thermal insulation build up thickness.

Build up thickness (mm)	Screw length (mm)	Non threaded length (mm)	Unit/box
0-10	30	0	1000
0-20	40	0	1000
0-30	50	0	1000
0-35	55	0	1000
20-40	60	0	1000
25-45	65	0	1000
30-50	70	0	1000
35-55	75	50	1000
40-60	80	50	1000
50-70	90	50	1000
60-80	100	50	500
70-90	110	50	500
80-100	120	50	500
90-110	130	50	500
100-120	140	50	500
110-130	150	50	500
120-140	160	50	500
140-160	180	50	500
160-180	200	50	500
180-200	220	50	500
210-230	250	50	250
260-280	300	50	250
